

## BEFORE BEGINNING YOUR INSTALLATION

Read through the instruction guide before getting started with the installation. Professional installation is recommended for this product.

## CONTENTS

- 46-Sound Keyboard Control Box with Cigarette Lighter Plug
- 15W Speaker
- PA Microphone with Bracket
- Mounting Hardware

The specific voltage requirement for this horn kit is 12 volt DC, therefore installation must be done to a DC power source of 12 volts.

## SAFETY INSTRUCTIONS

- Make sure you never attempt to disassemble this horn kit's electrical components.
- Avoid operating this product in an area with risk of falling or submergence into a liquid (water).
- Make sure you set up in areas with good ventilation.
- Never sound the air horn anywhere near your ear(s) or that of another person.
- Make sure your battery ground is detached before getting your installation started.
- Employ equipment for eye protection during drilling operations.
- Do not replace your vehicle's factory horn with this unit or use it as a warning device.

## MOUNTING

### KEYBOARD CONTROL BOX

- Find a mounting location in which you will have access to the keys and connectors of the keyboard control box.
- Mount the unit on the location chosen with the provided Velcro strips.

### SPEAKER

- The ideal location for the speaker to be installed is a dry area inside your engine compartment where it will be safe from exhaust and engine manifold heat.
- To make the speaker firm and secure use the mounting bracket as a template to mark the holes location and drill using a 1/8" drill bit.
- Secure speaker with three self-tapping screws (not provided).
- **IMPORTANT:** The downward orientation of the speaker will prevent water to get inside.

### ELECTRICAL CONNECTIONS

- **SPEAKER CABLE (HORN):** Using the provided speaker cable, connect the plug to the keyboard control box and route it through the fire wall of your vehicle to attach it to the speaker previously installed in the engine compartment.
- **MICROPHONE (MIC):** To use the unit as a PA system connect the microphone's cable plug to the keyboard control box.
- **CIGARETTE LIGHTER PLUG:** To provide power to the system, connect this plug to your vehicle's cigarette lighter female receptacle.

### OPERATION

- To start using the electronic horn set the vehicle's ignition to the ON position.
- **ON-OFF / VOLUME:** Moving the dial to the right will turn on the keyboard control box, moving the dial to the right will increase the volume, while moving it to the left will decrease it. To power off the unit move the dial all the way to the left.
- **MODE:** Use this key to select the mode of the unit (ANIMAL, ALARM, MUSIC, PIANO and MIC), for a list of sounds available for each mode, see the table below.
- **REPEAT:** In normal playback a sound will play a few times and then will stop, pressing this key will make the sound to play continuously.
- **STOP:** This key will stop current sound playback.
- **PIANO:** Play your own tune using the keyboard.
- **MIC:** This mode will allow you to broadcast your voice using the microphone. Make sure the microphone cable is connected to the keyboard control box and the switch located on the microphone is moved to the ON position.
